with **7+ years** of experience in designing, scaling, and delivering enterprise-grade, high-performance web applications for over **5 million** users. I am an expert in the modern web stack, including **React**, **Next.js**, **SvelteKit**, and **TypeScript**, with deep knowledge of **SSR**, accessibility, and architectural design patterns.

My focus is on building intelligent, maintainable systems that enhance both user and developer experience. I have a proven track record of optimizing performance and leading frontend architecture, which has led to a 90% increase in customer satisfaction and a 20% boost in organic visibility.

Having recently completed an MSc in Computer Science (2024), I am now applying my knowledge to full-stack development with **Python** and **Node.js**, and am actively engaged in **AI/LLM-driven** projects, integrating smart agents with tools like LangChain, OpenAI, and Gemini. Open to AI-driven product teams across Europe or fully remote roles (**EU Blue Card holder**).

EXPERIENCE

BimObject, Budapest, Hungary / Malmö, Sweden — Intermediate *Software Engineer - Hybrid*

Jul 2023 - PRESENT

• Architected and built **SvelteKit SSR** apps with centralized auth, securing access for **5M+** users.

• Developed **SEO-optimized Angular Universal** apps, boosting organic visibility by 20%.

• Delivered 20+ features for high-traffic platforms, enhancing user engagement by 30%.

• Collaborated with backend teams to design performant **API** integrations.

• Contributed to an internal Next.js / **React** + **AI** project, deepening skills in **LLM**-enabled UIs.

Citronity, Toronto, Canada — *Software Engineer - Remote*

Oct 2021 - Jul 2023

• Built 4 **React** applications and reusable UI libraries using **Ant Design** and **Redux**.

• Improved UX by 50% through debugging and codebase optimization.

• Mentored junior developers and helped increase team output by 20%.

SKILLS

Programming Languages

JavaScript ES6+ - TypeScript

Frontend Frameworks

React - Next.js - SvelteKit - Angular - Redux/toolkit - Zustand

UI/Styling

HTML5 - CSS3 - SCSS/SASS - Tailwind CSS - Styled Component (CSS-in-JS) - Bootstrap - Ant Design - Shadcn - Storybook - Design System Implementation & Maintenance - UI Component Libraries

API & Data

REST API - GraphQL - Zod - Yup - React Query (Tanstack), RTK Query

Tools & Version Control

Git - Github - Azure - Docker - ConfigCat - Crowdin - Cloudflare - Jira - Figma

Concepts

SSR/CSR - Agile - Test (Unit/Integration) - CI/CD (Pipeline) - Design Systems (Storybook) - DevOps Mindset - BFF (Backend For Frontend)

Familiar with

Node.js - Express - AWS S3 -

• Increased customer satisfaction by 90% through rapid delivery and quality UX.

Hamimohajer, Alborz — *Frontend Developer*

Oct 2020 - Oct 2021

- Designed and launched **React/Next.js** dashboards, raising engagement by 40%.
- Integrated 30+ **REST APIs** into scalable web apps.
- Enhanced app performance by 50% through **React** best practices.

Tadbir Hesab Mohaseban & Novin Tarh Gostaran, — *Frontend Developer*

Jun 2017 – Oct 2020

- Refactored **React/SCSS** codebases to reduce downtime by 20%.
- Led responsive design implementation, improving mobile retention.
- Solved cross-browser issues, increasing accessibility and performance.

EDUCATION

Óbuda, Budapest, Hungary— *MSc Computer Science*

Sep 2022 - Aug 2024

Hashtgerd Azad, Alborz — *BSc Computer Science*

Feb 2014 - Jul 2018

PROJECTS

AI Portfolio- Portfolio powered by **OpenAI, LangChain, Next.js 15, and Redis (Upstash)**

Assistly - AI chatbot for websites, built using **Next.js 15, OpenAI API, PostgreSQL, GraphQL, Clerk, DaisyUI, and LangChain**.

IOPIE & NIKOLA - IoT admin panels for the energy industry (NDA)

3D Portfolio- Interactive 3D site using **Three.js, Framer Motion, Tailwind**

GitHub - You can find more on my GitHub

AI/Agent - Python - Three.js - Telemetry/Kafka - Google API - MQTT/WebSocket - Mapbox, Langchain, Upstash, Vector DB - Highchart - Postgresql, Prisma, Terraform

Soft Skills

Collaboration/Teamwork - Mentorship/Training - Communication - Problem-Solving/Troubleshooting - Adaptability/Continuous Learning - Proactiveness/Initiative

LANGUAGES

English (Professional)

German (A2)

Hungarian (A2)

Kurdish (Native)
